

HORNBY®

SCALE SCENICS

H0 & 00 Gauge Model Railway Scenics

Humbrol™

Just like every other aspect of railway modelling, adding scenic elements can be as easy or as demanding as the enthusiast requires.

From themed packs of clip together plastic buildings, to trees and scatter, Hornby has the product to meet the demands of most modellers.

Building extension packs allow a layout to be populated quickly with the typical type of buildings normally encountered in and around the railway network. A layout can then be customised by adding individual elements, such as bridges, fences and pylons from the standard Hornby clip together range of plastic buildings. As confidence and budgets increase, plastic buildings can be replaced with hand painted resin buildings from the Skaledale range, offering the modeller an extensive range of building styles from which to choose from.

Once buildings are in place, the addition of vehicles, from the SkaleAutos range, people and livestock will bring some 'animation' to the layout. By now, the modeller may well be considering scenic elements, such as trees, ground cover, grass and trackways and so Hornby are pleased to introduce the SkaleScenics range of detailing products, bringing depth and life to a growing layout. With a wide range of deciduous and evergreen trees, plus bushes, together with long and short grass types, a typical landscape can be constructed, even down to stone tracks, scree slopes and rocky terrain.

For many modellers, the ability to 'weather' locomotives, rolling stock, buildings and landscapes is the final step of their modelling education and Hornby, through Humbrol, provides a number of weathering products and washes to help towards that final goal of 'Your World' being complete.

Classic Trees

Handmade for finer quality, the SkaleScenics Profi Tree range will bring added scenic detail to any model railway or diorama.

The trunks of the trees are painted by hand so that no shining plastic surfaces are left visible and to give more volume. All of the branches are covered with fine wool before they are flocked. This mimics the leaf shapes and colours of a real tree and, as in nature, only the fine branches of the PROFI trees have leaves, so this is replicated in our range.

Hobby Trees

| | | | | | |
|---------------------------|-------------------------|----------------------------|-------------------|----------------------------|---------------------|
| R7198 | 'Hobby' Deciduous Trees | R7199 | 'Hobby' Fir Trees | R7201 | 'Hobby' Mixed Trees |
| 50-90mm Twenty per pack | | 50-140mm Twenty per pack | | 50-140mm Twenty per pack | |
| | | | | | |

(Pack includes a mixture of deciduous and Fir)

Professional Trees

| | | | | | | | |
|---------------------|---------------------------|---------------------|-------------------------|---------------------|----------------------------|---------------------|------------------|
| R7212 | Fruit Tree | R7213 | Apple Tree (with Fruit) | R7214 | Pear Tree | R7215 | Birch Tree |
| 75mm Single item | | 75mm Single item | | 75mm Single item | | 115mm Single item | |
| | | | | | | | |
| R7216 | Rowan Tree (with Berries) | R7217 | Acacia Tree | R7218 | Tree (with Circular Bench) | R7219 | Beech Tree |
| 115mm Single item | | 150mm Single item | | 115mm Single item | | 130mm Single item | |
| | | | | | | | |
| R7220 | Oak Tree | R7221 | Lime Tree | R7222 | Horse-Chestnut Tree | R7223 | Lime Tree |
| 160mm Single item | | 185mm Single item | | 195mm Single item | | 185mm Single item | |
| | | | | | | | |
| R7224 | Tree (with Tree House) | R7225 | Medium Nordic Fir Tree | R7226 | Large Nordic Fir Tree | R7227 | Medium Pine Tree |
| 150mm Single item | | 120mm Single item | | 145mm Single item | | 120mm Single item | |
| | | | | | | | |
| R7228 | Large Pine Tree | | | | | | |
| 150mm Single item | | | | | | | |
| | | | | | | | |

Ballast

| | | |
|-------------------------------------|---|---------------------------------------|
| R7164 Brown Weight 250g | R7165 Grey Weight 250g | R7166 Limestone Weight 250g |
| R7167 Granite Weight 250g | R7168 Basaltic Rock Weight 250g | R7169 Gneiss Weight 250g |
| R7170 Coal Weight 250g |  | |

Scatter

| | |
|--|--|
| R7171 Flower Meadow Weight 42g | R7172 Light Green Weight 42g |
| R7173 Medium Green Weight 42g | R7174 Brown Weight 42g |
| R7175 Grey Weight 42g | R7176 Dark Green Weight 42g |

Note:
To cover an area of 1m² you will need approximately 100 g scatter material and 500g of Grass Glue.

Flockage & Flock

| | | |
|--|--|--|
| R7156 Bright Green Flockage Weight 20g | R7157 Medium Green Flockage Weight 20g | R7158 Dark Green Flockage Weight 20g |
| R7159 Medium Brown Flockage Weight 20g | R7160 Dark Brown Flockage Weight 20g | R7161 Bright Green Flock Weight 20g |
| R7162 Medium Green Flock Weight 20g | R7163 Dark Green Flock Weight 20g | |

Accessories

R7182 Static Grass Puffer Bottle
Use with R7183 to apply Static Grasses
